

# TEACHERS ACADEMY

## COURSE OUTLINE

**This is a 20 hour course designed to cover critical skills needed in an active shooter event. You will be briefed on lessons learned from active shooter incidents around the country and world. Law enforcement, medical, and self defense professionals will teach skills that are designed to save lives.**

### Topics Covered:

- **Emergency Medical Techniques**
- **Weapons Familiarization**
- **Utah Concealed Carry Certification**
- **Self-Defense**
- **VirTra Simulator Training**
- **Tactical De-Escalation**
- **Live Fire Range Day**

“School safety is of the utmost importance to me and the Sheriff’s Office. We are excited to provide this level of training to our educators. Many times people fail to act in critical incidents because they have never been trained to act. The skills taught in this course are designed to teach you how to act and how to save lives.”
